TECHNICAL SKILLS

- **Languages:** Python, R, C, SQL
- **Skilled In:** Data Analysis, Data Visualization, Data Cleaning, Machine Learning, Statistical Analysis, Dashboarding
- **Tools:** Python (Pandas, NumPy, Scikit-learn), Tableau, Power BI, Excel, Matplotlib, Seaborn

PROJECTS

- **Sales Forecasting using Machine Learning** — Analyzed 5,000+ sales records using Python and regression models, improving forecasting accuracy.
- **DataSpark: Global Electronics Data Analysis** — Performed EDA using Python, SQL, and Power BI to analyze sales trends, customer behavior, and product performance through interactive visualizations.
- **Website Traffic & Engagement Analytics** — Used SQL to analyze user data and built a Power BI dashboard to track KPIs such as traffic sources and user engagement.
- **Suspicious Login Detection System** — Analyzed login patterns using Python to detect anomalies and identify potential security threats.

INTERNSHIPS

AI/ML Developer Intern — Intellectsera Technologies

Sept 2025 – Nov 2025

- Assisted in AI system workflow research and documentation (speech, OCR, chatbot).
- Worked with Python for basic data processing and experimentation.

Data Science Intern — Shiash Info Solutions

Sept 2024 – Nov 2024

- Performed data cleaning and preprocessing using Python (Pandas) to improve data quality for analysis.
- Processed and analyzed 3,000+ records using Python to extract meaningful insights

CERTIFICATIONS

- Certified Ethical Hacker (CEH v13) — EC-Council
- Workshops on AI with ML & Data Science (IISc Bangalore), Generative AI (CIT Chennai)
